CONGRATULATIONS

You are choosing something special, because our high-quality fabrics offer you more than just shade. They create atmosphere, well-being and are an important design element in your living or working environment. Color is more than just décor. It is a targeted design tool and has a holistic effect. With fabrics from our collection – consisting of 380 different designs – you are choosing a European high-tech textile product in premium quality that will give you pleasure for many years to come. Indulge yourself and get inspired. In addition, you have the option of combining your fabric with a variety of different frame colors. Our specialist dealers will be happy to advise you.

Useful tools are also available on the Internet.
Here you can enlarge and examine all fabrics in a close-up viewer: **www.stobag.com/collection.** With the awning designer you can visually simulate your desired shading system: **www.stobag.com/designer**

We wish you plenty of inspiration.

The available color samples are not color-binding. Deviations in production technology are possible.

SYMBOLS

UV PROTECTION

UV 90 The fabric filters more than 90 % of the UV rays
UV 95 The fabric filters more than 95 % of the UV rays
UV 100 The fabric filters 100 % of UV light

FABRIC RAPPORT

The fabric repeat describes the distance of the repeating pattern. Printed is not woven. Please compare your selection with an original sample at your local STOBAG dealer.

FABRICS

FABRIC FOR SHADING

FABRIC WITH ADDITIONAL PROTECTION AGAINST WATER, FIRE AND HEAT

SHADING

CLASSIC UNI 6
CLASSIC STRIPES 16

- Maximum UV resistance
- Brilliant colors with great luminosity
- Extremely water resistant
- Especially dirt-repellent

DESIGN 24
STOBAG DESIGN | BRILLIANT 3D | BRILLIANT

- High-tech fibers
- Special touch and appearance
- Extremely high resistance to water pressure
- Harmonious, high-quality fabric appearance
- Officially tested UV protection for the skin

STOBAG DESIGN 26
BRILLIANT 3D 27
BRILLIANT 28

PROTECT PLUS

PROTECT PLUS 30
RESISTANT 32

- High UV resistance
- Phthalate-free coating
- Smoothness

RESISTANT BLOCKOUT 33

- Ideal for pergola applications
- Aesthetic matte appearance
- Ideal weight
- Heat and weather protection

WATER 36

- Extremely water-repellent
- Dirt-resistant
- Attractive surface structure

REFLECT 38

- Reflective surface
- Efficient thermal insulation
- Cool atmosphere
- Transparency and glare protection

FIRE 39

- Flame resistant
- Extremely water-repellent
- Ideal for the gastronomy industry

OPENING FACTOR
The opening factor defines the size of the fabric openings, e.g. OF 4 %.

ROLL WIDTH
Due to the specified roll width, various longitudinal or transverse welding seams can be produced, depending on the product and size.

FABRIC FOR TRANSPARENCY AND GLARE PROTECTION

TRANSPARENCY AND GLARE PROTECTION

SCREEN SOLTIS **40**
SOLTIS 86 **42**
- Thermal insulation and controlled lighting conditions
- Discreet view outside
- Sun and glare protection
- Weather resistant

SOLTIS 88 **43**
- Ideal compromise between thermal insulation and visual comfort
- Excellent outward visibility due to the uniform texture
- Surface stability

SOLTIS 92 **44**
- Fabric offering an ideal compromise between thermal insulation, outward visual contact, visual and glare protection

SCREEN SPECIAL **47**
SERGÉ 600 **47**
- Stability through glass fiber core
- Two-tone design
- Visibility and sun protection

SERGÉ 100 **50**
- Fabric with a very low opening factor of 1 %
- Reduced view during the day

TWILIGHT **51**
- 100 % PVC-free
- Ideal thermal insulation
- Perfect privacy and glare protection
- Harmonious transparency

FABRICS FOR DARKENING

DARKENING

SCREEN SOLTIS **40**
SOLTIS B92 **46**
- Absolute darkness
- Dimming or opaque
- Effective thermal insulation
- High mechanical strength
- Flame resistant
- Easy to clean

NOBLE SUN PROTECTION

CLASSIC UNI | CLASSIC STRIPES

Sun protection in its most beautiful design and from an extensive range of colors and patterns. Elegant, modern and to suit every taste. The fabrics are spun-dyed from high-quality acrylic fibers. This ensures that the colors are retained for a long time, even after intensive use. In addition, the fabric offers a high UV resistance due to a special coating and ensures excellent color fastness.

All roll widths are 120 cm.

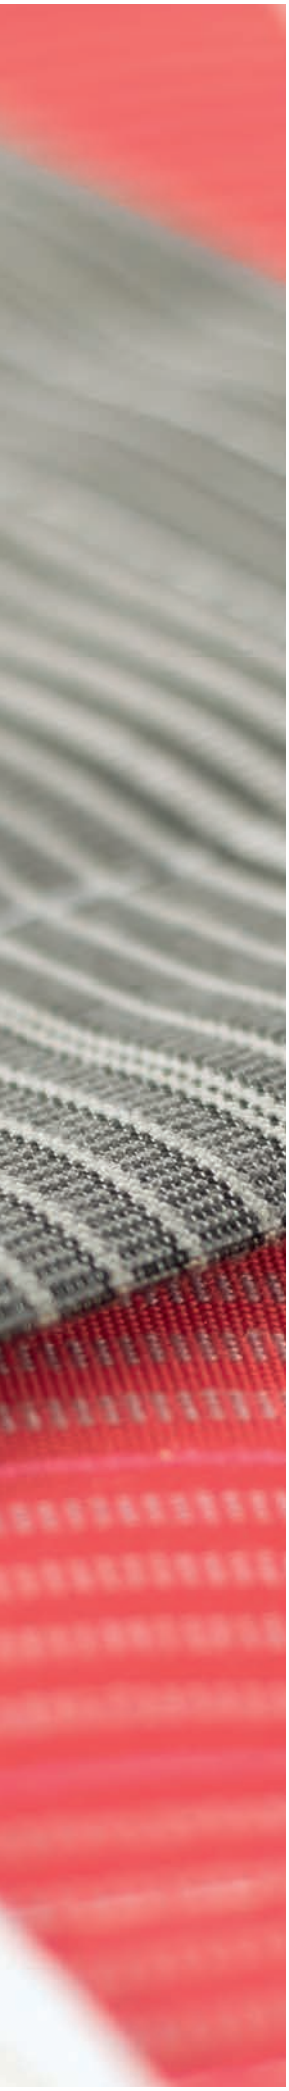
EXCLUSIVE WORLDS OF FABRIC SEE AND FEEL THE UNIQUENESS



DESIGN

The 3-D effect of the fabric offers a special visual and touchable experience. The CBA fibers (Clear Brilliant Acrylic) stands for excellent properties and is particularly smooth in contrast to conventional materials. The result is a fabric with an extremely dense surface that is particularly dirt-repellent and whose colors therefore shine brighter and longer. The fabric is also particularly water-repellent and offers very high UV protection.

To further underline the uniqueness, 10 different EXCLUSIVE designs have been developed, which are exclusively available from STOBAG and offer an aesthetic treat.

All roll widths are 120 cm.

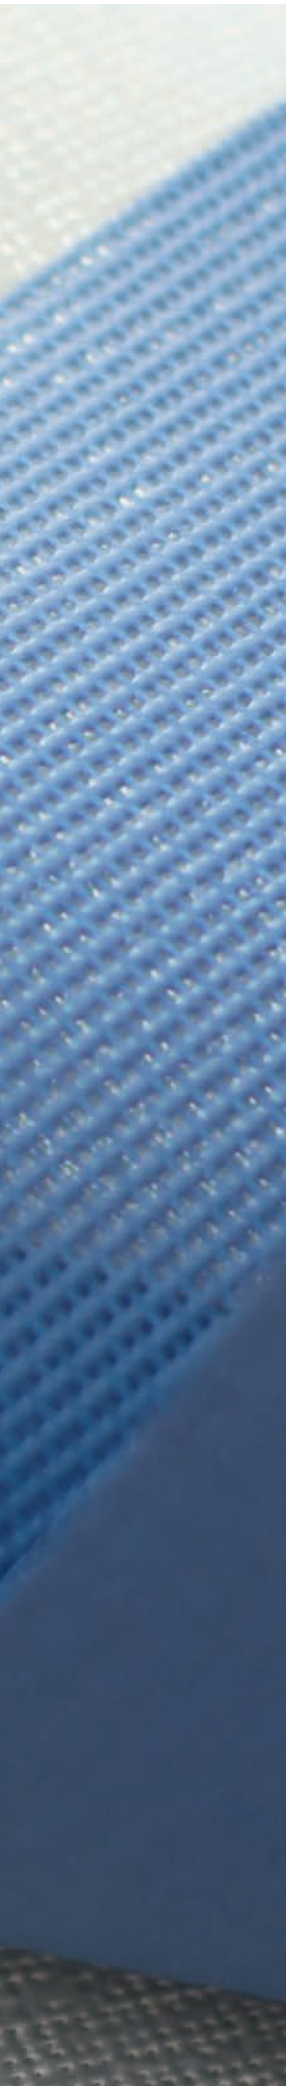
UNOBSTRUCTED VIEW AND GLARE PROTECTION IN ONE



SCREEN SOLTIS | SCREEN SPECIAL

Visual protection from the outside and yet the surroundings can be seen from the inside. The texture of the different and high-quality materials offer optimum privacy and sun protection for vertical shading. Depending on requirements, different opening degrees of light and air permeability are possible, thus ensuring an optimum room climate.

Due to the specified roll width, various longitudinal or transverse welding seams can be produced, depending on the product and size.

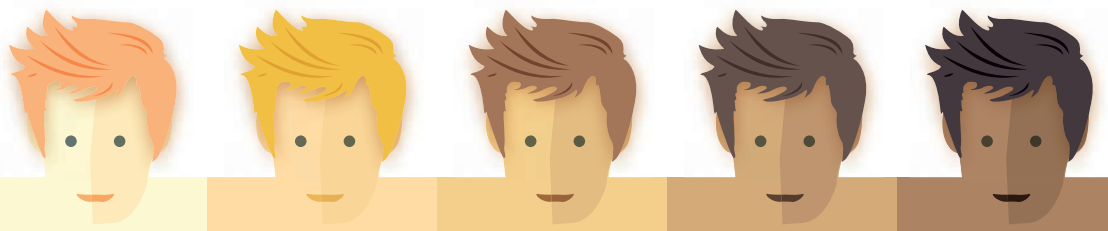
UV PROTECTION

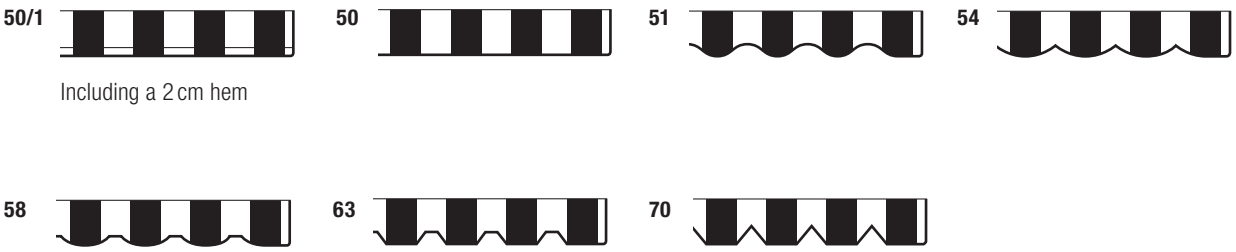
STOBAG only uses sun protection fabrics that have been tested according to current UV test standards (UV 801, EN 13758-1, AS/NZS 4399:1996). The materials tested provide 90–100 % protection against UV radiation. All specifications are guidelines and refer to adults, children's skin is much more sensitive.



SKIN TYPE	1	2	3	4	5
CHARACTERISTICS	Very fair skin, Light blonde or reddish hair, Freckles	Fair skin, blonde hair	Light tan skin, brown hair, no freckles	Tan skin, brown or black hair	Dark skin, black hair
Skin protection time	5–10 mins	10–20 mins	20–30 mins	~ 40 mins	~ 60 mins
Self-protection time under the awning cover					
UV 90	150–300 mins	150–300 mins	600–900 mins	~ 1350 mins	~ 1800 mins
UV 95	200–400 mins	400–800 mins	800–1200 mins	~ 1800 mins	~ 2400 mins
UV 100	400–800 mins	800–1600 mins	1600–2400 mins	~ 3600 mins	~ 4800 mins

THE VALANCE SHAPES

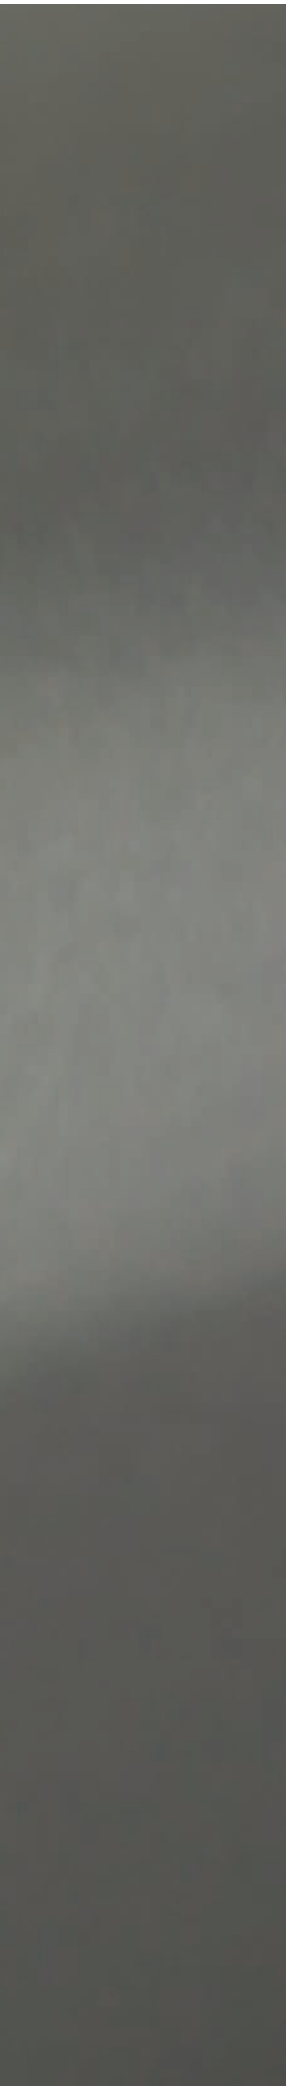
The recommended valance height is 15–20 cm, depending on the type of awning. The valance cut-out is adapted to the corresponding repeat width. For technical reasons, a manufactured valance subsequently can show repeat deviations of up to 6 cm. Important! Specify the valance number when ordering. Without specification, standard valance No. 50 is supplied.



THE EDGING TAPE FOR THE VALANCE

The valance has a hemmed edging tape to create a particularly beautiful appearance. Therefore it is important to always indicate the desired binding tape number when ordering fabrics. If no information is provided, the recommended edging tape as shown in this brochure will be used.

PERFECTLY COORDINATED



FRAME COLORS

Thanks to the wide range of colors and surfaces, the frame colors can be harmoniously matched to the fabric and its surroundings. With 14 CLASSIC- and 20 LIFESTYLE colors, as well as a variety of traditional RAINBOW colors, a wide range is available that leaves nothing to be desired. All profiles and frame parts are also powder-coated and offer the construction effective weather protection.
